Graduated in Graphic Design, I have a good knowledge of Adobe's Creative Suite programs, especially Illustrator, Indesign, Photoshop and After Effects. I also have good knowledge of UI creation programs such as Figma and Webflow.

During my studies and the internship period at Internet One, I had the opportunity to approach projects regarding the creation of logos, sites and apps which allowed me to refine my skills while also collaborating with the marketing and developer team.

I am a creative person, predisposed to constant learning and always ready to test myself. I am able to manage projects respecting deadlines and guaranteeing the highest quality of the work produced.

I am convinced that with my background and my skills I can be an added value for your team.

I am attaching my resume and portfolio, which provide a more detailed overview of my skills.

I thank you in advance for considering my application and I remain available to answer any questions and/or to organize a meeting via Zoom or by telephone (348 254 0462).

Best regards,  
Debora Santarcangelo
